CAREER OBJECTIVE

Information Science engineering student interested in cybersecurity and AI engineering, with practical experience building secure backend applications, Retrieval-Augmented Generation (RAG) systems and machine learning projects. Interested in developing secure, reliable and scalable software systems.

EDUCATIONAL QUALIFICATIONS

- **NMAM Institute of Technology** – B.Tech Information Science Engineering — CGPA: 8.46 (Current)
- **Expert PU College** – Class XII — 92%
- **Canara High School** – Class X — 83%

TECHNICAL SKILLS

- **Languages:** C, C++, Java, Python, JavaScript
- **Web & Backend:** HTML, CSS, React, Next.js, Flask, FastAPI, Node.js
- **Databases:** MySQL, PostgreSQL, SQLite, ChromaDB, pgvector
- **AI / ML:** RAG, LLM Integration, Scikit-learn, XGBoost, Isolation Forest
- **Cybersecurity & Systems:** JWT Authentication, Access Control, Networking, Linux, Basic System Design
- **Tools:** Git, GitHub, Docker

PROFESSIONAL EXPERIENCE

Manipal Technologies Ltd — *Intern*

- Completed an internship focused on developing a secure, ticket-based communication portal designed for internal users and external clients.

PROJECTS

RAGFENCE – Secure RAG Application — GitHub

- Developed a security-focused RAG application to examine risks from malicious documents and document-based prompt injection.
- Implemented JWT authentication and user-based document access control with secure document retrieval.
- *Technologies: Python, FastAPI, PostgreSQL, pgvector, JWT, OpenRouter*

CampusAI – AI-Powered Academic Assistant — GitHub

- Developed an academic assistant featuring document upload, text extraction, chunking and knowledge retrieval.
- Implemented grounded question answering using RAG and study plan generation.
- *Technologies: Python, RAG, ChromaDB, SQLAlchemy, OpenRouter*

Local Offline AI Model (OpenRouter)

- Co-conceptualized and developed an AI application designed for LAN-based usage.
- Built a browser extension featuring a global chat interface and drag-to-select text analysis.

Cloud Storage System

- Developed a storage system inspired by Google Cloud Storage, exploring backend architecture and file storage design.

ACADEMIC INTERESTS

Cybersecurity, AI Engineering, Operating Systems, System Design, Machine Learning, Cloud Systems

ADDITIONAL INFORMATION & CERTIFICATIONS

- **6-Day AI Workshop** – L&T
- **Meta AI Course** – Coursera
- **Agentic AI Workshop** – ISE Department, NMAMIT
- **Smart India Hackathon** – Participation Certificate
- **Adobe Hackathon** – Participation Certificate
